

Investment Overview

Corvallis School District 509J Solar + Battery Project

The Oregon Clean Power Co-op, in partnership with the Corvallis Sustainability Coalition, will install a 150 kW solar + battery project at the Corvallis School District offices, at 1555 SW 35th St., in Corvallis. OCPC will finance the solar installation, with assistance from the Coalition in raising funds from community members through investments and donations. The District will pay for the batteries, which will provide emergency backup power to keep the District's computer and communications systems running in case a natural disaster shuts down the power grid.

Community Investment Opportunity (Oregon Residents Only)

- Investment Amount: \$80,000
- Minimum Investment: \$1,000
- Investment Rate: 4.0% APR
- Investment Term: Investment plus interest paid back in annual payments over 10 years.
- Membership fees:
 - OCPC lifetime membership: \$50
 - Solar Oregon: \$25

Community Solar Financing Process

Use of Funds

The funds raised will be loaned to the Corvallis School District, which will add them to its own funds to pre-pay a Power Purchase Agreement with the System Owner. Benton Electric will install the system for the System Owner, who will sell the power it produces to the District. The District's savings on electricity will enable it to pay back the loan to OCPC, which in turn will pay back the investors in the project. After ten years, the District will take over ownership of the system.

Project Team

Installer: BE Solar
Developer: Oregon Clean Power Cooperative
System Owner: Robert Street
Investment Partner: Corvallis Sustainability Coalition

This is a summary of the Oregon Clean Power Cooperative Offering Memorandum dated October 13, 2019 describing the Corvallis School District Solar Project, and is qualified in its entirety by reference to the Offering Memorandum. The Offering Memorandum is available on the Oregon Clean Power Cooperative website at oregoncleanpower.coop, or in hard copy upon request. You should review the Offering Memorandum carefully before making any decision to invest.

The Oregon Clean Power Cooperative is the only state-wide cooperative in the U.S. dedicated solely to renewable energy. Our member-financed projects keep capital circulating locally, create green jobs, and enable Oregon communities to become more self-reliant through locally-generated clean power.

COMMUNITY-OWNED RENEWABLE ENERGY
