

Investment Overview

Corvallis High School II (CSDII) Solar Project

The Oregon Clean Power Co-op, in partnership with the Corvallis Sustainability Coalition, will help finance the installation of 150 kW of solar panels at Corvallis High School. This is the Co-op's second project at Corvallis High School, after the installation of 117 kW of solar in 2018.

Funding for the project will come from Energy Trust of Oregon, from the Corvallis School District, which is required to spend 1.5% of its 2019 school construction bond funds on solar, and from investment by community members through the Co-op. The community investment will let the school district nearly double the amount of solar it can put on CHS.

The solar project will be installed on metal roofs, shown in dark blue below. The location of the existing 177 kW solar array is shown in light blue. The Corvallis School District will select a solar contractor following a public bidding process to be conducted in November / December 2020.

Community Investment Opportunity

(Oregon Residents Only)

- Investment Amount: \$120,000
- Minimum Investment: \$1,000
- Investment Rate: 4.0% APR
- Investment Term: Investment plus interest paid back in annual payments over 10 years.
- Membership fees:
 - OCPC lifetime membership: \$50
 - Solar Oregon: \$25

Project Team

Developer: Oregon Clean Power Cooperative
System Owner: Corvallis School District
Investment Partner: Corvallis Sustainability Coalition
Solar Installer: TBD – School District will select from bids

Use of Funds

The funds raised will be loaned to the Corvallis School District, which will add them to its own funds to pay for installation of the system. The District's savings on electricity will enable it to pay back the loan to OCPC, which in turn will pay back the investors in the project.

This is a summary of the Oregon Clean Power Cooperative Offering Memorandum dated November 13, 2020 describing the Corvallis High School II Solar Project, and is qualified in its entirety by reference to the Offering Memorandum. The Offering Memorandum is available on the Oregon Clean Power Cooperative website at oregoncleanpower.coop, or in hard copy upon request. You should review the Offering Memorandum carefully before making any decision to invest.

The Oregon Clean Power Cooperative is the only state-wide cooperative in the U.S. dedicated solely to renewable energy. Our member-financed projects keep capital circulating locally, create green jobs, and enable Oregon communities to become more self-reliant through locally-generated clean power.
