

Investment Overview

Corvallis Schools Solar Project

The Oregon Clean Power Co-op, in partnership with the Corvallis Sustainability Coalition through *Solarize Corvallis*, will help finance the installation of 140 kW of solar panels at three Corvallis schools. This is the Co-op's fourth project for the Corvallis School District. The schools are:

Linus Pauling Middle School (89 kW) - rooftop
Cheldelin Middle School (29 kW) – ground, northwest of the track
Franklin (22 kW) - rooftop

Funding for the project will come from Energy Trust of Oregon, the Corvallis School District, which is required to spend 1.5% of its 2019 school construction bond funds on solar, and from investment by community members through the Co-op. The community investment will let the school district nearly double the amount of solar it can install at the schools.

The solar panels at the three schools are expected to produce more than 154,400 kWh of clean, renewable electricity annually, equivalent to not driving a passenger car 274,300 miles.

Community Investment Opportunity

(Oregon Residents Only)

- Investment Amount: \$134,000
- Minimum Investment: \$1,000
- Investment Rate: 4.0% APR
- Investment Term: Investment plus interest paid back in annual payments over 10 years.
- Membership fees:
 - OCPC lifetime membership: \$50
 - Solar Oregon: \$25

Project Team

Financing: Oregon Clean Power Cooperative
Outreach Partner: Corvallis Sustainability Coalition
System Owner: Corvallis School District
Solar Installers: Advanced Energy Systems (Franklin)
Energy Wise Systems, LLC (Cheldelin, Linus Pauling)

Use of Funds

The funds raised will be loaned to the Corvallis School District, which will add them to its own funds to pay for installation of the system. The District's savings on electricity will enable it to pay back the loan to OCPC, which in turn will pay back the investors in the project.

This is a summary of the Oregon Clean Power Cooperative Offering Memorandum dated March 15, 2022 describing the Corvallis Schools Solar Project, and is qualified in its entirety by reference to the Offering Memorandum. The Offering Memorandum is available on the Oregon Clean Power Cooperative website at oregoncleanpower.coop, or in hard copy upon request. You should review the Offering Memorandum carefully before making any decision to invest.

The Oregon Clean Power Cooperative is the only state-wide cooperative in the U.S. dedicated solely to renewable energy. Our member-financed projects keep capital circulating locally, create green jobs, and enable Oregon communities to become more self-reliant through locally-generated clean power.
